

Services Guide

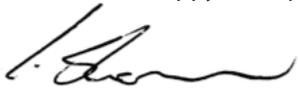

INTRODUCTION

BIT4 has been established for over 5 years. The company's ethos is honesty, value and service. We like to focus on the relationship between you and ourselves. To us you are not just another invoice number or client number. We aim to work with you, on the work you need doing.

We offer a one stop shop for installations, contract maintenance and emergency response of Fire Alarms, Intruder Alarms, Access Control Systems, CCTV Systems, Electrical work and IT system management.

BIT4 is certified and approved to offer electrical services in domestic, commercial, and industrial environments. Our work is closely monitored by NAPIT (a UKAS accredited organisation committed to consumer safety) who ensure that the work we do is to a high standard and meets all electrical and building regulations.

Bit4 is certified and approved to offer CCTV, Intruder Alarms and Door Access control systems, to the relevant British and European standards. As we are monitored by the SSAIB, we are authorised to provide service and maintenance on systems with Police Response. If you are looking for a service provider that is customer focused and relationship driven, then please give one of my team a call. We are more than happy to help you.

Luke Shaw, Managing Director.

MANAGED IT

Bit4 offers complete on-site support, workshop services and remote IT management solutions. We have over 20 years of experience delivering services to business and home users. We don't sell computers and so are able to offer completely impartial advice, on which direction is best for your individual situation.

Contact us to discuss your IT system, whether it is an existing system you need maintenance on, a new IT solution you need installing, or just general advice.

FIRE

Fire is one of the most devastating incidents that could occur, endangering people, stock, assets and premises. A reliable fire alarm and fire protection system is essential in any business. It is paramount to check whoever installs and maintains your fire alarm system is qualified to do so.

Bit4 is fully authorised to offer installations, servicing, repairs and a 24-hour call out service.

Contact us to discuss our bespoke range of fire alarm systems, and we can provide a free quotation for installation and any maintenance contract on request.

Call us on: 0330 088 2733

INTRUDER ALARMS

Thieves go for an easy target. Make it as hard as possible for intruders to enter your premises undetected. Burglar alarms are a popular security solution to help achieve this. Bit4 can supply, install and maintain a range of burglar alarm security systems. We provide a full risk assessment for your premises, to determine what level of protection you require. We are accredited to install and maintain intruder alarm systems and manage your integration to remote monitoring stations and other systems like CCTV if required.

Contact us to discuss your needs or to arrange for an engineer to visit and provide you with a full specification and quotation for your security solution.

EMERGENCY LIGHTING

Emergency lighting is provided to give illumination of the escape routes, fire exits and other features in times of power failure. Many of the various lighting options are available as non-maintained, maintained or combined type units. There is also a range of LED illuminated emergency lights, which are extremely efficient and have a long life span. Bit4 ensure your emergency lighting can always be relied upon.

Contact us to discuss your emergency lighting and we can provide a free quotation for installation and any maintenance contract on request.

Call us on: 0330 088 2733

ELECTRICAL

Bit4 provide a variety of electrical services including: Design, Installation, Electrical installation condition reports, Maintenance and Portable Appliance testing, for the commercial and industrial sectors.

Bit4 is a member of NAPIT (National Association for Professional Inspectors and Testers) under a UKAS accredited scheme. All of our electricians have been assessed by NAPIT and our business processes checked to ensure they meet NAPIT standards every year, assuring a first class service to you. All registered work, completed by us, is backed by NAPIT's 6-year guarantee.

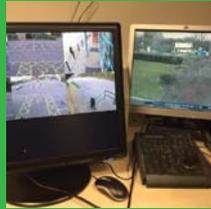

Bit4 know how much businesses rely upon their electrical installations; in the commercial or domestic sectors, nobody wants to have power outages. We are committed to serving you and your electrical requirements, with the utmost care taken to minimise disruption to your business.

CCTV

CCTV has proven to be a highly effective deterrent to thieves. Effective coverage can help to minimise break-ins and losses. We supply, install and maintain a wide-range of CCTV surveillance systems, offering you complete flexibility and coverage. You have the option to monitor the system remotely via broadband, watch live footage and record to hard disc drive.

Contact us to discuss our bespoke range of CCTV systems, and we can provide a free quotation for an installation and any maintenance contract on request.

Call us on: 0330 088 2733

ACCESS CONTROL

Our range of access control systems ensure that only authorised people have access to your premises, keeping your building secure. Video door entry systems, audio entry systems, keycard entry and contactless systems are all available. We cover all sizes of business; from simple door entry systems to large-scale, whole site installations. Our maintenance engineers will ensure that your system is always up and running, for round the clock security, and issues are dealt with quickly and efficiently.

Contact us to discuss your needs or to arrange for an engineer to visit and provide you with a full specification and quotation for your Door Access.
